

NOTORY VERN - [FACEBOOK](#) Vern is a Retired Recorder: One that records
See his book published by a popular industry magazine: [TELEPHONE PLANT RECORDS](#)

Complex at 2203 172nd Street; Marysville, WA. *This complex needs help and just try to help.*
My actions appear to be a nosy – busy body but this serious.

On Sunday, the 7th,
I sent the photo right, in an email to
our building manager.
Subject: **I WOULD LIKE TO CRY!**

**After Compacting the Trash
last November**

OUR RECYCLE ROOM TODAY

I took the photo left, after I cleaned all the trash out of the Recycle Dumpster.
Opps, I didn't get that shredded paper up. ☹

On Monday I sent this: **The FOUR STEPS IN WASTE MANAGEMENT**

One. All TRASH is put in the WHITE BAG.

Two. All WHITE BAGS got down the DOWN THE CHUTE Or in the GRAY TUB.

Three. All RECYCLE Material is put in the DUMPSTER.

Four. Any RECYCLE Material in a WHITE BAG & Go back to Step **Two**.

Just a thought. Have a good Week.

On Tuesday I sent this: You must be tired with hearing from me.

Before you came here residents were saying they didn't have anything to take their recycle stuff to the dumpster. Tom told them to put in the white plastic bag and he would take it out and throw the bag in the trash. That was working. He, Andrew and myself did clean Recycle out of many, many bags.

Yesterday I put copies of the pamphlet below, on the bulletin board and handed some out in the game room today.

PLASTIC BAGS

**Plastic bags used for our waste are ONLY FOR TRASH, (Garbage)
When Tom and Andrew were here and RECYCLE Stuff
was put in plastic bags, they took the good recycle stuff
out of the bags and threw the bag in the trash.**

They are not here anymore!

**ALL PLASTIC BAGS in the Recycle Cart will end up
in our states Garbage Landfill.**

**When our stuff gets to the BIG RECYCLE PLANT,
Any plastic bag on the sorting belt is
pulled out and thrown in the Garbage.**

Plastic Bags get CAUGHT IN MACHINERY of the plant.

Take this note and pass it around. Our recycle is a mess.

Knowing that everything put in printing must be positive, what about this.

For Waste Management at Vintage at Lakewood, Any SMALL TRASH can be put in a plastic bag and put in the CHUTE provided at the West end of the North and South wings. Also, Small Trash can be placed in the Gray Tub in the Trash rooms on the First floor.

Recyclable material can be placed in the Green Dumpsters in the First Floor Trash room.

Residents can take their large objects, like chairs, beds, mattresses to the North County Recycling & Transfer Station located just 5 miles NE at 19600 63rd. AV. NE.

CLEAN Cardboard can be recycled in the Vintage Green Dumpster. The plastic wrapping around Cardboard boxes and the Plastic Bubble or Styrofoam packing inside boxes can be put in the Gray Barrel, making the Cardboard Clean for Recycling.

Just ANOTHER though. Thanks for listening. Vern

I received this reply from a Leasing Consultant 😞
on Wednesday the 10th at 09:30 – *I wonder if her boss asked her to do this?*
Vern, could you please cease and desist the handing out, and leaving of pamphlets in and around the Vintage at Lakewood. You do not have our permission to be doing so. Vintage at Lakewood does have a management team, and maintenance team as well as procedures policies that handle our garbage. While we thank you very much for your thoughtful concern, again, we have systems in place by our company that we do abide by. Leasing Consultant - Vintage at Lakewood

I REPLIED: I understand Thanks for your response.
Are any of my words not appropriate for residents to read?
Vern

Her action reminded me of managers I worked under in my working days.

I quit four jobs because of them. I can't quit here.

I have never been unemployed. I have a good reputation and have always had a place to go.

On Thursday I took our Recycle down. My son and grandson went with me. Smell they did not like.

I put the clean bottles and stuff into the Green Dumpster.
Notice, the Trash Chute was full Trash all around the Compactor.

On Friday a Brown Dumpster was put out in the fire lane for its scheduled pick up. Two gray tubs with trash were also put out. The truck dumped only dumpster and left the tubs.

I have the Lead Maintenance Man's email. May not with approval of his boss. His name Austin

With a lot of trash not being picked up, I gave him this suggestion.

What if you threw all those white plastic bags into your truck and took it 5 mile east to here. The Arlington Recycling and Transfer Station

NOTORIOUS VERN

Then I sent a second email to Austin

The white bags can contain ALL RECYCLE
Over a year ago, residents said they had no way to carry Recycle stuff to Trash room.
Tom said: "use white bag and he would take it out throw bag in trash."

This last Tuesday I got chewed out by the Vintage Leasing Consultant for giving this pamphlet below, to
14 neighbors.

PLASTIC BAGS

**Plastic bags used for our waste are ONLY FOR TRASH, (Garbage)
When Tom and Andrew were here and RECYCLE Stuff
was put in plastic bags, they took the good recycle stuff
out of the bags and threw the bag in the trash.
They are not here anymore!
ALL PLASTIC BAGS in the Recycle Cart will end up
in our states Garbage Landfill.**

**When our stuff gets to the BIG RECYCLE PLANT,
Any plastic bag on the sorting belt is
pulled out and thrown in the Garbage.
Plastic Bags get CAUGHT IN MACHINERY of the plant.**

Take this note and pass it around. Our recycle is a mess.

The residents thanked me for the news.
I made this a year ago: https://www.youtube.com/watch?v=OpVczZ1_Ioc
SEE: <http://memorieshop.com/Waste-Management/>
Watch plastic bags being tossed out:

Just trying to help ☺

I have received NO Reply's from Austin.

Saturday, I had to take trash down because Chute was blocked.

First Recycle Dumpster – Looked Good

Chute was full because compactor was.

I told our Leasing Consultant that the Chute was blocked again.

She said: "No maintenance available today."

I said: "Well, there is no place for us to put our trash. This could be a Health or Safety concern."

I took more Trash down Sunday evening. Somebody had done some cleaning. 😊
Some of Chute removed
Area looked good.

Monday Morning October 15, 2018

Two Trash Dumpster were put out.

The truck took ONLY ONE. Again 😞

I sure hope some kind of change is coming.
